

SDC100W

100W Siren Amplifier

MAXP

FEATURES

- Remote siren with small size is a ideal solution for space limited installation.
- Class D amplifier design for low current draw, clean sound output, higher efficiency and longer speaker lifespan.
- Programmable 11ohm or 8ohm output can operate with single 100w speaker or dual 50w speakers (4ohm in series connection).
- Programmable tone group meets various country standards.
- "Record-n-Play" that records message and play instantly without using a memory card.
- Siren Interlock that disable siren activation without primary warning.
- Optional standard PA/Microphone.
- Short circuit, over/low voltage and overcurrent protection.
- Meet ECE R10 and CISPR 25.

SPECIFICATIONS

Compliance: ECE R10

Input Voltage: 12-24 VDC

Siren Output Power: 100w

Output Load: 100W-ACR 11Ω

Siren Frequency: 373Hz- 1594Hz

Max. Current: 9.5A @ 12VDC / 4.5A @ 24VDC

Standby Current:

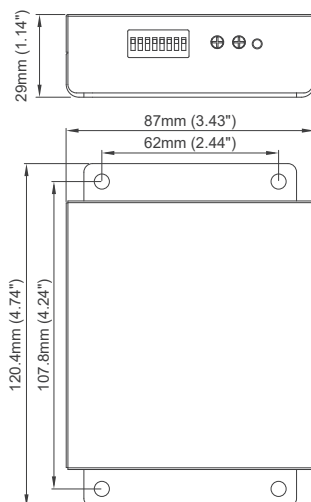

(w/o IGN wire) 2mA @ 12VDC / 3.5mA @ 24VDC

(w/ IGN wire) 0.3A @ 12VDC / 0.2A @ 24VDC

Operating Temp: -40°C to 65°C
